Contemporary Science Education
– Implications from Science Education Research
about Orientations, Strategies and Assessment

A collection of invited papers inspired by the
20th Symposium on Chemical and Science Education
held at the University of Bremen, 27-29 May 2010

Shaker Verlag
Aachen 2010

Contents

Contemporary science education – Implications from science education research about orientations, strategies and assessment <i>Ingo Eilks & Bernd Ralle</i>	1
Societal issues and their importance for contemporary science education <i>Avi Hofstein, Ingo Eilks & Rodger Bybee</i>	5
Contemporary scientific literacy and the (ir-) relevance of science education <i>Claus Bolte</i>	23
What do regulative ideas in education for sustainable development and scientific literacy as myth have in common? <i>Franz Rauch</i>	35
Contemporary issues in scientific literacy: The key challenge for science education in the new millennium <i>Richard K. Coll</i>	47
Developing scientific literacy: TY science and science scrapbooks <i>Peter E. Childs, Sarah Hayes, Jemma Lynch & Maria Sheehan</i>	57
Contextualisation, de-contextualisation, re-contextualisation – A science teaching approach to enhance meaningful learning for scientific literacy <i>Jack Holbrook & Miia Rannikmäe</i>	69
Functional roles of science in socio-scientific discussions <i>Jan Alexis Nielsen</i>	83
Perspectives from research on pedagogical content knowledge: Consequences for changes in science teacher education <i>Vanessa Kind</i>	97
Understanding and assessing science student teachers' contemporary pedagogical content knowledge <i>Pernilla Nilsson</i>	111
Providing chemistry teachers with contemporary scientific activities: A three-stage model <i>Rachel Mamlok-Naaman, Avi Hofstein & Ron Blonder</i>	123
The democratic capacity of science education – Or: Is inclusive science education the contemporary science education <i>Simone Abels & Annelie Wellensiek</i>	135
Researching the development of science teachers' contemporary understandings of scientific literacy <i>John Loughran, Kathy Smith & Amanda Berry</i>	147
How can a multiplication in-service training system facilitate the implementation process of standard-based teaching? <i>Julia Michaelis, Dieter Schmidt & Marie-Ann Mowka</i>	157

The contribution of the informal sector to school chemistry education <i>John K. Gilbert</i>	169
On judgment and decision-making about socio-scientific issues: A cross-faculty approach for learning about climate change <i>Dietmar Höttecke, Corinna Hößle, Ingo Eilks, Jürgen Menthe, Maria Mrochen, Helen Oelgeklaus & Timo Feierabend</i>	179
Exemplifying the tentativeness of scientific knowledge in the history of modern physics and utilizing vignettes in assessing understandings <i>Mehmet Fatih Tasar</i>	193
ICT in chemistry education: Clarification or clouding <i>Susan Rodrigues</i>	207
Teaching and learning of modelling in chemistry education: Authentic practices as context for learning <i>Gjalt T. Prins, Astrid M. W. Bulte & Albert Pilot</i>	219
Pupils' attitudes towards biology, chemistry and physics in Croatian elementary education: A story of differences <i>Boris Jokic</i>	231
From science education in the soviet time, via national reform initiatives, towards an international network to support inquiry-based science education – The case of Georgia and the project SALiS <i>Marika Kapanadze, Simon Janashia & Ingo Eilks</i>	237
Active teaching strategies in science education – An e-module for in-service teacher training <i>Ani Epitropova</i>	243
Improving the learning environment: Students' creative thinking and reasoning skills through PARSEL teaching <i>Miia Rannikmäe, Anne Laius & Jack Holbrook</i>	247
Considerations related to the use of virtual experiments in science lessons – An experience learnt in the VccSSc project <i>Gabriel Gorghiu & Laura Monica Gorghiu</i>	253
ICT tools and their effectiveness in science lessons – The FISTE project experience <i>Laura Monica Gorghiu & Gabriel Gorghiu</i>	259
Reflections on orientations, strategies and assessment for contemporary science education <i>Ingo Eilks, John K. Gilbert, Avi Hofstein, Silvija Markic, John Oversby, Albert Pilot & Bernd Ralle</i>	267
List of registered participants	277
