

Dissertation zur Erlangung des Doktorgrades
der Fakultät für Chemie und Pharmazie
der Ludwig Maximilians-Universität München

Acidity and Catalytic Performance of Protonated Zeolites

von
Stefan Kotrel
aus Meersburg
1999

Erklärung:

Diese Dissertation wurde im Sinne von §13 Abs. 3 bzw. 4 der Promotionsordnung vom 29. Januar 1998 von Prof. Dr. H. Knözinger betreut.

Ehrenwörtliche Versicherung:

Diese Dissertation wurde selbstständig, ohne unerlaubte Hilfe angefertigt.

München, am 3.8.1999

Stefan Kohler

Dissertation eingereicht am 15.6.1999

1. Gutachter: Prof. Dr. H. Knözinger
2. Gutachter: Prof. Dr. Th. Bein

Mündliche Prüfung am 29.7.1999

Acknowledgments

I would like to thank my advisors, Dr. Jack H. Lunsford and Dr. Helmut Knözinger, for their advice and support in guiding this research work. They made it possible for me to carry out this research work, in part at *Texas A&M University* as well as the *Universität München*.

I also wish to thank Dr. Michael Rosynek. for his competent scientific advice. Moreover, his technical experience helped a lot in solving problems related to the various apparatuses used in the course of this work.

I am very grateful to Wayne Daniell and Maria Raimondi for their support in proofreading this manuscript. Their lingual expertise has considerably contributed to making the reading of it enjoyable.

Appreciation is given to the past and present members of the research groups at Texas A&M as well as the *Universität München* for their important advice and assistance. Moreover, working together with them was always fun and an inspiring experience.

I also wish to thank René for his help with computer related problems.

I am greatly indebted to my parents, my sister for the support during all the years.

Table of Content

1. INTRODUCTION	1
1.1. INTRODUCTORY REMARKS	1
1.2. RESEARCH OBJECTIVES.....	10
2. MATERIALS AND EXPERIMENTAL SETUPS.....	11
2.1. MATERIALS	11
2.1.1. <i>Sample Preparation</i>	11
2.1.2. <i>Si/Al-ratios and Pore Volume</i>	11
2.1.2.1. Si/Al- Ratios and Na ⁺ content	11
2.1.2.2. Pore volume.....	13
2.2. EXPERIMENTAL SETUPS	15
2.2.1. <i>IR Spectroscopy</i>	15
2.2.1.1. Low Temperature IR	15
2.2.1.2. <i>In situ</i> DRIFTS setup.....	16
2.2.2. <i>Catalytic Tests</i>	18
2.2.2.1. Plug Flow Reactor	18
2.2.2.2. Microbalance	19
3. IR-SPECTROSCOPIC CHARACTERIZATION OF PROTONATED ZEOLITES.....	20
3.1. INTRODUCTION.....	20
3.2. EXPERIMENTAL	23
3.3. RESULTS AND DISCUSSION	23

3.3.1. <i>The $\nu(\text{OH})_{\text{Stretch}}$ Region of the Pristine Zeolites</i>	23
3.3.2. <i>IR-Spectra of Adsorbed Probe Molecules</i>	28
3.3.2.1.CO	28
3.3.2.2.Hydroxyl Frequency Shift and Proton Affinity for CO, H ₂ and N ₂	37
3.4. SUMMARY	42
4. CATALYTIC CRACKING ACTIVITY OF N-HEXANE OVER PROTONATED ZEOLITES.....	44
4.1. FUNDAMENTAL ASPECTS OF N-HEXANE CRACKING.....	44
4.2. DETERMINATION OF KINETIC CONSTANTS	46
4.2.1. <i>Experimental</i>	46
4.2.2. <i>High Pressure Results</i>	47
4.2.2.1.Activity	47
4.2.2.2.Product Distribution	49
4.2.2.3.Summary	52
4.2.3. <i>Low Pressure Results</i>	53
4.2.3.1.Activity	53
4.2.3.2.Product Distribution	57
4.2.3.3.Summary	62
5. INTRINSIC CATALYTIC CRACKING ACTIVITY	63
5.1. ADSORPTION OF <i>N-HEXANE ON ZEOLITES</i>	63
5.1.1. <i>Experimental</i>	64
5.1.2. <i>Results</i>	65
5.1.2.1.Sorption equilibria.....	65
5.1.2.2.Na-Form	67
5.1.2.3.H-Form	70
5.1.3. <i>Discussion</i>	72
5.2. PARTIAL POISONING OF PROTONATED ZEOLITES WITH SODIUM.....	73

5.2.1. <i>Experimental</i>	74
5.2.2. <i>Results</i>	75
5.3. INTRINSIC RATE CONSTANTS	82
5.4. CONCLUSIONS	85
6.SOME REMARKS ON THE ROLE OF OLEFINS IN PARAFFIN CRACKING OVER PROTONATED ZEOLITES	86
6.1. INTRODUCTION	86
6.2. IN SITU-DRIFTS OF A WORKING CATALYST	87
6.2.1. <i>Experimental</i>	87
6.2.2. <i>Results</i>	87
6.3. A SIMPLE KINETIC MODEL	95
6.3.1. <i>The Model</i>	95
6.3.2. <i>Modeling bimolecular cracking</i>	109
6.4. <i>P/O-RATIOS AND CATALYST DEACTIVATION</i>	121
6.5. <i>SUMMARY</i>	124
7. COMPARATIVE DISCUSSION OF SPECTROSCOPIC AND CATALYTIC RESULTS	125
8. FINAL CONCLUSION	129
9. REFERENCES	130

*I know that you believe you understand
what you think I said, but I'm not sure you
realize that what you heard is not what I
meant.*

(Robert McCloskey)
