## Preface to the IWSM

The International Workshop on Software Measurement has a long tradition in the German community on Software Metrics, from its beginning as a small working group with the initiators (Reiner Dumke, Christof Ebert and Horst Zuse) currently leading the German Computer Science Interest Group on Software Measurement (GI FG 2.10)).

After the initial contacts with the Canadian Interest Group in Software Metrics (CIM), in particular with the team of Prof. Alain Abran in Montréal in the early 90's, the goals of the workshop have focused progressively on the measurement processes as well as on practical issues of interest to industry. For instance, a key event at the 8<sup>th</sup> IWSM was the founding of the Common Software Measurement International Consortium (COSMIC) which has played since an important role in the application of modern software measurement methodologies and innovations. Software process evaluation and improvement require quantified methods and technologies. Issues such as the applicability of measures to software, the efficiency of measurement programs in industry and the theoretical foundations of software engineering have been researched in order to evaluate and improve modern software development approaches.

Our proceedings published at the Deutsche Universitätsverlag and the Shaker-Verlag (Aachen, Germany) constitute a collection of both theoretical studies in the field of software measurement and case study reports on the application of software measurements in companies and universities in Argentina, Australia, Austria, Bahrain, Belgium, Brazil, Bulgaria, Canada, Finland, France, Germany, Ghana, Italy, Netherlands, Poland, Slovenia, Spain, Switzerland, UK, USA and Vietnam.

These proceedings of the 15<sup>th</sup> International Workshop on Software Measurement (IWSM 2005) are of particular interest to software engineering researchers, as well as to practitioners, in the areas of project management and quality improvement programs, for both software maintenance and software development.

We would like to thank the members of the program committee:

*Alain Abran*, École de technologie supérieure - Université du Québec, Canada  
*Luigi Buglione*, AtosOrigin, Italy  
*Manfred Bundschuh*, DASMA, Germany  
*François Coallier*, ÉTS, Canada  
*Jean-Marc Desharnais*, ÉTS, Canada  
*Javier Dolado*, Universidad San Sebastian, Spain  
*Ton Dekkers*, Sogeti Nederland B.V., Netherlands  
*Reiner Dumke*, University of Magdeburg, Germany  
*Christof Ebert*, Alcatel, Paris, France  
*Naji Habra*, FUNDP, Namur, Belgium  
*Nadine Hanebutte*, University of Idaho, USA  
*Franz Lehner*, University of Passau, Germany  
*Roberto Meli*, DPO, Italy  
*Olga Ormandjieva*, Concordia University, Canada  
*Andreas Schmietendorf*, FH Harz Wernigerode, Germany  
*Harry Sneed*, SES Munich/Budapest, Hungary  
*Charles Symons*, Software Measurement Service Ltd, Edenbridge, UK  
*Hannu Toivonen*, Nokia, Finland  
*Horst Zuse*, TU Berlin, Germany

We would also like to thank Mrs. Dörge for preparing the unified layout and the Shaker Publisher for their assistance.

Montréal (Canada)  
September 2005

Alain Abran  
Reiner Dumke

**Table of Contents**

<b>Preface .....</b>	III
<b>Table of Contents .....</b>	V
Towards Meaningful Metrics Data Bases.....	1
<i>R. Braungarten, M. Kunz, A. Farooq, R.R. Dumke</i>	
Architecture Maturity and Requirements Maturity Do not Explain Each Other.....	35
<i>M. Daneva</i>	
Tool supported effort monitoring and estimations in EAI multi Projects.....	53
<i>D. Reitz, A. Schmietendorf, R. Dumke</i>	
<b><u>Keynote:</u></b>	
Offshoring – 6 years of industrial experience in distributed software development .....	67
<i>A. Schmietendorf, S. Stojanov</i>	
Measurement eLearning – A classification approach for eLearning- Systems.....	79
<i>M. Kunz, R. Braungarten, R.R. Dumke</i>	
Software Maintenance expert system (SM <sup>xpert</sup> ) – Measuring the use of the knowledge base .....	95
<i>A. April, J.-M. Desharnais</i>	
On the Applicability of FPA and COCOMO II in a workflow and maintenance context .....	105
<i>V. Paulus, G. Seront, M. Lopez, C. Huvelle, B. Bolle</i>	
Benchmarking is an essential control mechanism for management .....	107
<i>T. Dekkers</i>	
Investigation of the Effort Data Consistency in the ISBSG Repository .....	123
<i>D. Dery, A. Abran</i>	

## Table of Contents

---

MTPF Function Points Measure Early Method .....	137
<i>R.A. Monge, F.S. Marco, F.T. Cervigón</i>	
A Case Study on Using Functional Size Measurement Methods for Real Time Systems.....	159
<i>C. Gencel, O. Demirors, E. Yuceer</i>	
FSM Influences and Requirements in CMMI-Based Software Processes.....	179
<i>R.R. Dumke, K. Richter, T. Fetcke</i>	
Adapting Use Case Model for COSMIC-FFP Based Measurement <i>P. Habela, E. Glowacki, T. Serafinski, K. Subieta</i> .....	195
COSMIC-FFP & Functional Complexity (FC) Measures: A Study of their Scales, Units and Scale Types .....	209
<i>M. Abu Talib, A. Abran, O. Ormandjieva</i>	
Measurement Convertibility - From Function Points to COSMIC-FFP .....	227
<i>A. Abran, J.-M. Desharnais, F. Aziz</i>	
Improvement of analysis model by removing improper parts based on functional size measurement .....	241
<i>S. Nagano, T. Ajisaka</i>	
Functional details visualization and classification in the COSMIC FSM framework.....	255
<i>L. Santillo</i>	
Complex Evaluation of an Industrial Software Development Project.....	267
<i>A. Schmietendorf, R. Dumke</i>	
Analysis of Object-Oriented Metrics .....	281
<i>K.K. Aggarwal, Y. Singh, A. Kaur, R. Malhotra</i>	
Measurement of Cohesion and Coupling in OO Analysis Model Based on Crosscutting Concerns.....	305
<i>O. Ormandjieva, M. Kassab, C. Constantinides</i>	
Information Management for Industrial eLearning Projects.....	321
<i>U. Blazey, R. Dumke</i>	

An Analysis of the Design and Definitions of Halstead's Metrics.....	337
<i>R.E. Al Qutaish, A. Abran</i>	

**Keynote:**

Software Measurement Body of Knowledge – Overview of Empirical Support .....	353
<i>L. Buglione, A. Abran</i>	

Using Simulation to Determine the Sensibility of Error Sources for Software Effort Estimation Models .....	369
<i>M. Ruiz, J.-J. Cuadrado Gallego, M.-A. Sicilia, D. Rodríguez</i>	

Independent Dimensions of Software Complexity .....	381
<i>R. Neumann, D. Kleemann</i>	

The Measurement Service in Software Engineering Environments .....	389
<i>M. Bollaín, J. Garbajosa</i>	

On the Impact of the Types Conversion in Java onto the Coupling Measurement.....	401
<i>M. Lopez, A. Abran, G. Seront, N. Habra</i>	

An Agent-based Measurement Infrastructure .....	415
<i>R. Dumke, M. Kunz, H. Hegewald, H. Yazbek</i>	

Analysis of the Designs of Coupling Measures: A Case Study .....	435
<i>L. Cheikhi, A. Abran, M. Lopez</i>
