Contents

Introduction.....	1
Erlangen Fitness und Osteoporosis Study (EFOPS) – Long-term effects of intense exercise on Bone Mineral Density in early postmenopausal subjects with osteopenia.....	3
EFOPS-II-Study: Effect of movement velocity (strain rate) on Bone Mineral Density in early postmenopausal females.....	9
Training and Cimicifuga Racemosa Erlangen (TRACE)-Study – Effects of exercise and phytoestrogens (Cimicifuga Racemosa) on risk factors and physical complaints of the early menopause. Preliminary study results....	13
Senior Fitness and Prevention Study (SEFIP) – Effects of a multi-purpose exercise program for the elderly on bone loss and falls.....	21
Erlangen Longitudinal Vibration Study (ELVIS)-I Study: The effect of adjuvant whole body vibration on bone and fall rate in the elderly.....	29
ELVIS II: Effect of Whole Body Vibration on different devices on osteoporotic risk factors in postmenopausal women	34
Final Comment.....	39
